Agrify Announces Third Quarter 2021 Financial Results

November 10, 2021

Revenue grew 460% year-over-year and 33% sequentially to \$15.8 million in Q3 2021

New bookings of \$32.2 million, increasing total backlog to \$117.5 million

Q4 2021 bookings expected to top \$100 million, Q4 2021 revenue expected to be approximately \$26 million to \$28 million, and full year guidance increased to \$60 million to \$62 million

BILLERICA, Mass., Nov. 10, 2021 (GLOBE NEWSWIRE) -- [Agrify Corporation](#) (Nasdaq:AGFY) ("Agrify" or the "Company"), a vertically integrated provider of premium cultivation and extraction solutions for the cannabis and hemp industry, today announced financial results for the period ended September 30, 2021 ("Q3 2021").

Q3 2021 Highlights

- Revenue increased 460% to \$15.8 million for Q3 2021 compared to \$2.8 million for Q3 2020 and increased 33% sequentially from \$11.8 million in Q2 2021
- New bookings were \$32.2 million for Q3 2021, and total backlog increased to \$117.5 million from \$101.1 million at the end of Q2 2021
- Announced new customer engagements:
 - Signed second Agrify Total Turn-Key Solution ("Agrify TTK Solution") agreement with True House Cannabis LLC to install up to 214 of Agrify's Vertical Farming Units ("VFUs")
 - Based on the newly increased VFU count, this partnership is anticipated to generate an estimated \$73 million in revenue in the next 10 years
 - Established multi-year vertical farming research and development partnership with Curaleaf to study the impact of cultivation environment on plant health and harvest yields
- Expanded and amplified partnership with existing customer, WhiteCloud Botanicals:
 - Shipped 114 new VFUs for WhiteCloud Botanicals' Phase 2 facility expansion, addressing increased demand in the growing Nevada market
 - Phase 2 of the facility is expected to be fully operational by the end of 2021
 - WhiteCloud Botanicals will feature the Agrify licensed brand, Western Cultured, as well as its own proprietary brand, WhiteCloud, at multiple top-tier dispensaries across Nevada, such as Jardin, ShowGrow, Thrive, Source, Ayr (aka The Dispensary), Green Cannabis Co, and Tryke (aka Reef Dispensaries)
- Obtained a license from the state of Massachusetts for the cultivation and production of industrial hemp
- Opened new cultivation and production R&D facility, product showcase, and corporate office in Billerica, Massachusetts, including the launch of Agrify University, a state-of-the-art indoor vertical farming facility and project-based learning program featuring Agrify's latest technology and advanced cultivation methods for in-classroom and on-demand learning options

"We are thrilled to announce that Q3 was another strong and impactful quarter for our team," said Raymond Chang, Chief Executive Officer of Agrify. "In the third quarter, we generated new highs in quarterly bookings and revenue while also moving our headquarters to Billerica, Massachusetts, launching Agrify University, securing new business opportunities and partnerships, and expanding our relationship with one of our valued legacy customers."

Mr. Chang added, "I am immensely proud of our team for showing tremendous character and tenacity in achieving a wide range of objectives in the third quarter and for setting us up for what we believe will be a hugely successful fourth quarter. Not only did we continue to translate the growing demand for our solutions into improved new bookings and revenue in Q3, but we also put a massive amount of time and energy into laying the foundation for the many deals and developments we've already announced in Q4, such as our transformative acquisition of Precision Extraction Solutions and Cascade Sciences, our VFU technology improvements, our entry into the attractive Arizona market through our transaction with Olive El

Mirage, and our 10-year TTK partnership with Kief USA.”

Mr. Chang concluded, “We fully anticipated that the second half of 2021 would build upon our many successes from earlier in the year while meaningfully reshaping the trajectory of Agrify in a profound way. We believe our recent performance shows that we are right on the mark and confirms that the future looks bright for Agrify. As we forge ahead, we are in advanced discussions with over 20 MSOs, we are actively engaging with more than 15 potential TTK and VFU cash customers, and we continue to explore other strategic acquisition opportunities. We look forward to closing out 2021 well-positioned for accelerated growth, and we will be providing our 2022 outlook in the coming months.”

Key Q4 2021 Developments, To Date

- Completed transformative acquisition of Precision Extraction Solutions and Cascade Sciences, positioning the Company as the most vertically integrated total solutions provider in the cannabis and hemp market
- Announced launch of improved VFU technology with enhanced features for increased efficiency and higher-quality yields, developed with contract manufacturer Mack Molding
 - Between Agrify’s Georgia facility and Mack Molding’s operations, the Company can now produce 220-240 VFUs per month
- Secured order for 400 VFUs from Olive EI Mirage, in Arizona, including the opportunity for Olive EI Mirage to determine whether to proceed with a cash purchase of the VFUs or finance most of this transaction within 90 days, except without the need for construction financing
- Secured TTK partnership with Kief USA, including the installation of 485 VFUs at its Massachusetts facility, and 20% of all construction and equipment costs provided by Kief USA

2021 Outlook

As a result of the strength of Agrify’s operations, rapid growth, and new strategic acquisition of Precision Extraction Solutions and Cascade Sciences, the Company expects Q4 2021 bookings to exceed \$100 million and Q4 2021 revenue of approximately \$26 million to \$28 million, bringing our full year guidance to \$60 million to \$62 million, up from the previous guidance of \$48 million to \$50 million. We also anticipate our EBITDA margins to improve significantly as we continue to see positive synergies and contributions from our newly acquired extraction division.

Non-GAAP Financial Measures

We report our financial results in accordance with generally accepted accounting principles in the United States ("GAAP"). However, management believes that certain non-GAAP financial measures provide investors with additional useful information in evaluating our performance and that excluding certain items that may vary substantially in frequency and magnitude period-to-period from net income (loss) provides useful supplemental measures that assist in evaluating our ability to generate earnings and to more readily compare these metrics between past and future periods. These non-GAAP financial measures may be different than similarly titled measures used by other companies.

To supplement our audited consolidated financial statements which are prepared in accordance with GAAP, we use "Adjusted EBITDA", which is a non-GAAP financial measure. Our non-GAAP financial measures should not be considered in isolation from, or as substitutes for, financial information prepared in accordance with GAAP. There are several limitations related to the use of our non-GAAP financial measures as compared to the closest comparable GAAP measures. Some of these limitations include:

We define Adjusted EBITDA as net income (loss) excluding interest expense, income taxes, depreciation and amortization, share-based compensation and other unusual and/or infrequent costs (i.e., change in fair value of derivatives liabilities, loss on debt extinguishment, one-time loss from write off and sale of fixed assets, costs associated with efforts to become public, acquisition related fees), which we do not consider in our evaluation of ongoing operating performance.
